

## Installation Instructions

### 3 Circuit Track

#### Product information

The fluxxLED 3 Circuit Track allows for full flexibility: multiple connector types can be combined to create complex powered shapes.

#### Regulations

All wiring and installation of this luminaire must adhere to local and national wiring regulations eg AS/NZS 3000:2007 Amendment 2:2012 Electrical Installation

#### Tips

1. Always ensure power is off and the fitting has cooled down before performing any maintenance or adjustment to the fitting
2. To avoid injury or damage to the fitting, ensure that power leads and screws are secure before connecting the power
3. Handle the fitting with care to avoid damage/ breakage
4. Find a suitable location away from liquids or hazards
5. To clean, wipe with a damp clean cloth. Never soak the fitting with water.
