IP65 Vandal Bulkhead Installation Manual

Important Safety Instructions:

Basic safety precautions should always be followed when installing, including the following:

1. Read all instructions.
2. Licensed electrician for installation only.
3. Always ensure the power is OFF and the fitting has cooled down before performing any maintenance, cleaning, changing the globe or adjustment to the fitting.
4. Do not install any luminaire near a heat source
5. Do not exceed the nominal supply voltage or amperage ratings.
6. To avoid injury or damage to the fitting, please ensure that power leads and screws are secure before connecting the power.

Installation Procedure

WARNING

1. Switch off before installation / maintenance.
2. Switch on only after complete installation and examination of the circuit.
3. Professional electrician for installation and maintenance only.

Turn Off power supply before starting any installation. Read instructions & check you have all the tools & accessories to complete the installation correctly.

How to install

Step 1

Take out the lamp and accessory.

Step 2

Separate frame and lamp shade.

Step 3

Fix the back housing on the wall or ceiling by screws. Drill holes in the ceiling, put plastic anchor into the hole, put the silicone pad into the screw, then aim the base wad at the lamp base hole, fix the base wad by screws.

Step 4

- a. Connect the plugs between the battery and driver if with Emergency function.
- b. Choose the color temperature with DIP switch if it's the color changeable version.
- c. Choose the power with DIP switch if it's the wattage changeable version (for 12 inch only)
- d. Connect the AC wires to the block.

Step 5

Connect the DC plugs, put back the cover to the back plate and fix it by screws.

Step 6

Buckle the frame back and fix it by proper tools

Step 7

Installation finished, turn on the switch.
